Hi Myron,

Attached is a PDF of the Site Plan for Don Jones on Old Roxbury Old, which we have a hearing on next week. We have used survey quality GPS equipment to obtain the actual site elevation and have revised the map to reflect that data. The entire site is well below 1850'. I'm forwarding this as I wanted you to know that we do have an accurate site elevation and as I assume you'll want the DRB to have this info before the hearing. Please let me know if you have any questions or if you want any hard copies.

Gunner
