

Minutes from June 21, 2011
Warren Cemetery Commission
East Warren Cemetery
6:30 PM

Members Present: Charlie Snow, Rudy Elliott, John Goss & Cindi Jones

Members Absent: Michele Eid

6:30 PM – The above members met at the East Warren Cemetery to discuss the back row of trees and to clarify with Mr. Elliott the property line pin locations. Ms. Jones had a copy of the legal survey of the East Warren Cemetery and pin locations were measured out according to the survey as filed in the Warren Town Clerks Office. It was found that the pin on right in the back had been moved and was placed back to its original location validating that the trees in the back were on cemetery land. Mr. Elliott was satisfied that where the cemetery line was in relation to the trees planted in the back row.

Also discussed was the row of trees to the right should be left as a hedge, but needed to be trimmed and the area where the hedge row ended needed to have some trees planted to continue the tree line.

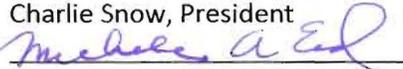

Mr. Elliott had also expressed concern about the 9' swath that was being mowed on the right side and on the back side of the cemetery as this was on Elliott land. The members decided that a legal document should be drawn up for the Elliott's to sign stating that the 9' swath being currently maintained was not owned by the Town of Warren only that it was being mowed to keep the grass from growing too high and disturbing the new trees. This would prevent any future claims by parties down the road trying to take claim to the 9' swath. Mr. Elliott was satisfied with the end result.

Minutes Respectfully Submitted by,
Cindi Jones, Warren Cemetery Secretary
