The Planning Commission and Sharon Murray of Burnt Rock Associates went through her suggested changes and modifications to *Section 3.4 Erosion Control & Development on Steep Slopes* of the *Warren Land Use Regulations*. The goal was to further define how steep slopes should be addressed and give more specific guidance to the Development Review Board to work with. Mr. Donaldson also commented that he also felt it was important to coordinate the steep slope requirements between *Section 3.4* and *Section 7.3*. The only aspect of the steep slope discussion that is left for further consideration is the treatment of very steep slopes under *Section 3.4 (B) (2)*.
