

PUBLIC NOTICE
ATTENTION DOG OWNERS
TOWN OF WARREN

It has been brought to our attention that Brooks Recreation Field has become a dog waste dumping area. Dog waste contains a lot of not-so-lovely disease-transmitting organisms such as roundworms. Brooks Recreation Fields were constructed for the purpose of promoting healthy recreation for everyone. The Warren School also uses the fields for outside physical activities. The other day a dog owner had let their dog off leash and it pooped right in front of the side doors into the school. No one likes like step in dog poop. We also have contractors managing our fields and out of respect and courtesy of those who maintain our fields please clean up after your dog. The Warren Dog Ordinance is available on the Town of Warren's website at www.warrenvt.org.
